As a group, you will brew 6 different recipes, and then return 2 weeks later to bottle your group's beer. The cost per person is \$70 *(for 3 mixed cases of beer)*, plus \$28.80 *(for 36 bottles)*. Reservations are required. *(Check vinepark.com for current schedule.)*

On-Line Scheduling

Getting a group scheduled can be a challenge and so to make it easier, we offer **On-Line Scheduling!** Here you will be able to see what days/times are available and even book kettles. Of course, you can always call us at the brewery if that works better for you.

Please call to schedule Wine making & Brew Club.

Group Brewing/Team Building Sessions

Organize your group and split the cost of a batch or brew up to 6 batches and swap cases! Groups of 1 to 3 people per batch works best. This gives everyone enough to do and plenty of beer to take home. Ask about our 11 am large group brewing option.

Beer & Wine Tips

Storing Your Beer

Beer is a perishable product. Since heat and light can adversely affect its flavor, store your beer in a cool, dark place and at a constant temperature. Refrigerate if possible. Consume within 8-12 weeks to fully enjoy its brewery fresh flavor.

Storing and Aging Your Wine

After bottling, stand your bottles upright for the first 48 hours. Then lay them on their side to age for a minimum of 6 months. While aging, your wine should be stored at 65° (cellar temperature).

Cleaning Your Beer and Wine Bottles

Rinse each bottle with water (no soap) immediately after consumption. Remove labels, drip dry and place inverted in the boxes we provide. Bring them when you return to bottle your next batch of beer or wine. We will sanitize them at no charge, so you can reuse them.

IF YOUR BOTTLES ARE NOT CLEAN, WE CANNOT ACCEPT THEM.

Clean, label - free beer bottles may be returned to bottle your next batch, saved as bottle credits in our records, or cashed out at 40¢ a piece.
